

SHOBHIT KUMAR

Senior Software Engineer | 5.5+ Years | Backend & AI Platforms
shobhitk68@gmail.com | +91-8447525727 | Delhi, India | Open to relocate to Germany / EU | LinkedIn

Skills

Backend & Cloud

Java, Kotlin, Python, Spring Boot, WebFlux, REST APIs, Microservices, WebSocket, Docker, Kubernetes, ArgoCD, Jenkins, Azure Pipelines

Payments & Data

UPI, NPCI, Net Banking, Wallet Transfers, QR Payments, Cashback, RBI/NPCI Audits, 10M+ Migration, MySQL, MongoDB, Freshdesk, Cron Jobs

AI Platforms

AI Agents, Multi-Agent Architecture, LMOS, ARC, LangGraph, MCP, RAG, Qdrant, Prompt Engineering, Context Engineering, Agent Evals, Supervisor Agent

Reliability & Tools

Grafana, OpenSearch, Structured Logging, Alerting, Production Debugging, SMS Campaigns, In-App Notifications, Git, GitLab, Jira, Postman, Cursor, OpenAI Codex, GitHub Copilot

Experience

Deutsche Telekom AG

Software Engineer - Backend & AI Platform

Gurgaon, India

02/2024 - Present

- Delivered backend components for 30+ production AI-agent journeys across chatbot and IVR channels, covering routing, tool execution, context, prompt orchestration, evaluations, and observability.
- Helped achieve 85%+ chatbot task-completion success and 30% IVR automation success by improving routing quality, prompt experiments, context retrieval, and tool-call correctness.
- Built multi-agent workflows with LMOS and ARC using RAG, Qdrant retrieval, specialized agents, supervisor routing, authentication flows, and evaluation pipelines.
- Integrated IVR voice agents with CIS and LiveKit for WebSocket session bootstrap, room credentials, tokens, room IDs, and E2EE key propagation.
- Owned production deployments, Grafana/OpenSearch monitoring, structured logs, alerting, debugging, and incident feedback loops for reliability improvements.
- Stack: Java, Kotlin, Python, Spring Boot, LangGraph, MCP, RAG, Qdrant, Kubernetes, ArgoCD, Jenkins, Azure Pipelines, Grafana, OpenSearch.

MobiKwik

Software Development Engineer I

Gurgaon, India

02/2022 - 02/2024

- Built Java/Spring Boot payment services for UPI, Net Banking, wallet transfers, QR payments, cashback/referrals, and compliance workflows within a 186.6M+ registered-user and 4.79M+ merchant ecosystem.
- Created a complaint-resolution microservice handling 10,000+ new ticket requests/day with Freshdesk/third-party APIs, webhooks, cron jobs, Hibernate/JPA persistence, and monitoring.
- Built notification and SMS campaign services for targeted SMS and in-app notification delivery across large customer segments.
- Worked on NPCI-powered UPI flows for QR/direct bank payments, bank callbacks, payer-name enrichment, and transaction-state handling.
- Migrated 10M+ legacy payment records to a new platform while maintaining validation, query correctness, and production continuity.
- Supported RBI/NPCI audits and built AWS Lambda based alerting for payment operations.
- Stack: Java, Spring Boot, Hibernate, JPA, REST APIs, MySQL, MongoDB, AWS Lambda, Jenkins, Azure Pipelines, UPI, NPCI, Freshdesk.

NexG IoT Solutions

Software Engineer

Gurgaon, India

09/2021 - 02/2022

- Built backend APIs across 3 core domains: authentication, notifications, and job-alert workflows using Java, Spring Boot, Node.js, TypeScript, and MySQL.
- Implemented Google authentication, signup/login, and location/keyword-based job alerts for web and mobile application flows.
- Stack: Java, Spring Boot, Node.js, TypeScript, REST APIs, MySQL.

Accenture

Application Software Engineer

Bengaluru, India

02/2021 - 09/2021

- Developed invoice-management dashboard features across 4 workflow areas: invoice submission, tracking, reporting, and production support.
- Built backend integrations and SQL-backed application changes while collaborating with distributed engineering and support teams.
- Stack: C#, ASP.NET, SQL, REST APIs.

Selected Projects

AI Agent Runtime / Onix Platform

02/2024 - Present

Built multi-agent backend runtime using Java/Kotlin, LangGraph, MCP, RAG, and Qdrant for routing, tool orchestration, evaluations, and observability across 30+ AI journeys.

IVR Voice Agents

02/2024 - Present

Integrated CIS and LiveKit voice sessions with WebSocket bootstrap, room tokens, room IDs, and E2EE propagation; contributed to 30% IVR automation success.

Payment Platform Services

02/2022 - 02/2024

Built Spring Boot services for UPI, Net Banking, wallet transfers, ticket resolution, Freshdesk integrations, SMS/in-app campaigns, RBI/NPCI flows, and 10M+ record migration.

Education

Guru Gobind Singh Indraprastha University

Bachelor of Technology

Information Technology

Delhi, India • 07/2016 - 11/2020

Languages

English
